

Air 1 Radio is a very important part of the local San Jose communitiy as it provides an outreach for the Christian faith through the music and commentary they provide. Most importantly, due to the type of contemporary/alternative Christrian music they play, this outreach is head by many young people throughout the Silicon Valley area.

If lost, there is no other local station that provides this type of service to the local community with the effect that Air 1 brings to this endeavor.

Air 1 therefore plays an imporant role in reaching our youth about the good news of Jesus Christ through music and messages geared to our younger generation, and enjoyed by mnay people of all ages. There is no local mainstream station in the San Jose community that can match Air 1. They are an unmatched "positive alternative" to mainstream radio and it would be a shame to lose this resource locally.
